

Representative Activities Carried out for Fast Paced Learners

Broad spread activities for the Fast-Paced Learners (FPLs) are carried out at different institutes/departments across the university. Summer fellowship program, Career Guidance Activity, Research Publications, Competitive Exam Preparations & Guidance, etc. are few of them.

Few of these activities are collected and compiled herewith as a representation of such all activities which are continuously carried out.

Summer Fellowship Program at RPCP

Rpcp Charusat is with Vishwa Talati and 6 others.

Ultimate meaning of research is to serve society. So the research and development is one of strongest pillar of RPCP.

In summer fellowship program 2019 of RPCP, total 16 students of different pharmacy colleges were participated and they spend total 15 day (90 work hours) in 9 different research areas.

Expert faculties of institute were monitored them regularly and trained them with different sophisticated instrument and unique research methodologies. So that students will choose research as their career options.

Expert sessions for fast pace learners

Activity for Fast Paced Learners (Representative) at CMPICA

Event Type:	Workshop
Topic:	Company Etiquette
Resource Person(s):	Mr. Suchit Patel (MBA) Head HR, Helios Solutions, Baroda
Duration:	4 th August, 2017 (9:30 am to 3:30 pm)
Funding from any Outside Agency:	None
Targeted Audience:	MCAL Semester III, M.Sc. (IT) Semester III
No. of Participants:	130
Overview of the Content Covered:	Soft Skill, Interview Skills, Email Writing, Telephonic Etiquette

Brief Details of Workshop: -

A three-day workshop on “Company Etiquette” was organized on 4th Aug at Smt. Chandaben Mohanbhai Patel Institute of Computer Applications (CMPICA), CHARUSAT, Changa to train all the pre-final semester students of CMPICA. Total 126 students participated in the workshop from difference branches like MCA Lateral Semester III, and M.Sc (IT) Semester III. The workshop provided in-depth knowledge on the modules like Soft Skill, Interview Skills, Email Writing, Telephonic Etiquette.

The main goal of this workshop was to prepare the students to empower their interpersonal skill that may be helpful for them to be competitive in their respective field.

Event Type:	Workshop
Topic:	Developing Interview Skills
Resource Person(s):	<ol style="list-style-type: none"> 1. Mr. Vijay Makwana, Asst. Professor, CHARUSAT 2. Ms. Krishna Parikh, Asst. Professor, CHARUSAT 3. Mr. Gaurav Thakkar, Asst. Professor, CHARUSAT 4. Mr. Kaushik Trivedi, Asst. Professor, CHARUSAT
Duration:	14 th July 2016 9:10 am to 4:20 pm
Funding from any Outside Agency:	No
Targeted Audience:	MCA Semester V, M.Sc. IT Semester III, MCAL Semester III
No. of Participants:	275
Overview of the Content Covered:	<ul style="list-style-type: none"> • Professional Communication • Interview Skill • Resume Building • Employability Skill

Expert Faculties: -

1. Mr. Vijay Makwana, Asst. Professor, CHARUSAT
2. Ms. Krishna Parikh, Asst. Professor, CHARUSAT
3. Mr. Gaurav Thakkar, Asst. Professor, CHARUSAT
4. Mr. Kaushik Trivedi, Asst. Professor, CHARUSAT

Brief Details of Workshop:-

Communication is the most vital factor to invade the corporate world. In order to enhance the inter-personal skill of the pre-final semester students, institute has conducted the workshop. Basic idea was emerged by TNP cell and the idea equally backed by respected principal sir and head of the department sir. Cell approached CS department of the university, and Dr. Dave and & Dr. Pandya allotted time and contents of the workshop also. The workshop found very effective and proved much helpful to pre-final semester students.

Abstract—Cloud computing is an on-demand delivery of services in which applications and infrastructure are allocated to users as metered services over networks. Cloud computing services are much cheaper as the user does not have to setup any computing hardware support. It is an emerging technology that has been delivering computing services such as online business applications, data storage over the Internet. Implementing cloud enables a distributed working environment, reduces expenditure of the organization, provides data and information security and so on. As many organizations are adopting cloud computing, attackers exploit the cloud to obtain unauthorized control to the valuable data stored in it. Evolution of traditional computing to cloud has led to many security challenges for both customers and service providers. Different types of services are provided by trusted cloud providers over the Internet using many technologies which arises different security threats. This paper discusses about cloud security issues, threats and related attacks.

Keywords—Cloud Computing, Security, Threats, Attacks

model. It provides a professional model for on demand computing services that is focused on cost-as-you-go method, that is customers can choose any resources which are needed. In a virtualized manner, they provide a massive amount of computing power by the integration of all the computing resources in a single physical system [2].

Some security loopholes in cloud computing are still a demanding issue in cloud environment. As several businesses accept cloud technology, cloud computing is rising day by day, but it poses many security challenges at the same time. Many enterprises hesitate to handover their sensitive information to cloud environment as many risks are associated with it. Several distinct threats are introduced to the privacy and security of cloud services due to the usage of virtual machine. Another issue is data migration over the Internet. The concept of multi-tenancy is used for sharing cloud resources among multiple users. This idea is an obstacle to the development of a fully safe architecture. The cloud provider is hesitant to incorporate security monitoring or intrusion detection and prevention systems due to transparency problems [21].
