**FEEDBACK ANALYSIS
REPORT
OF STAKEHOLDERS
(2023-24)**

Analysis of Feedback on Syllabus/Curriculum AY: 2023-24

● Analysis of Feedback by Student

	Excellent	Very Good	Good	Average	Below Average
Percentage(%)	48.49%	39.16%	09.34%	3.01%	0%

- Overall syllabus is good.
- More practical session required than theory session.
- Labs of SNT course should be required.
- 7th sem subjects should be transferred to early semester/ Cutting edge technology courses should be offered before 7th sem
- Include SE course in 6th sem
- let students have more flexibility over the choices of elective course

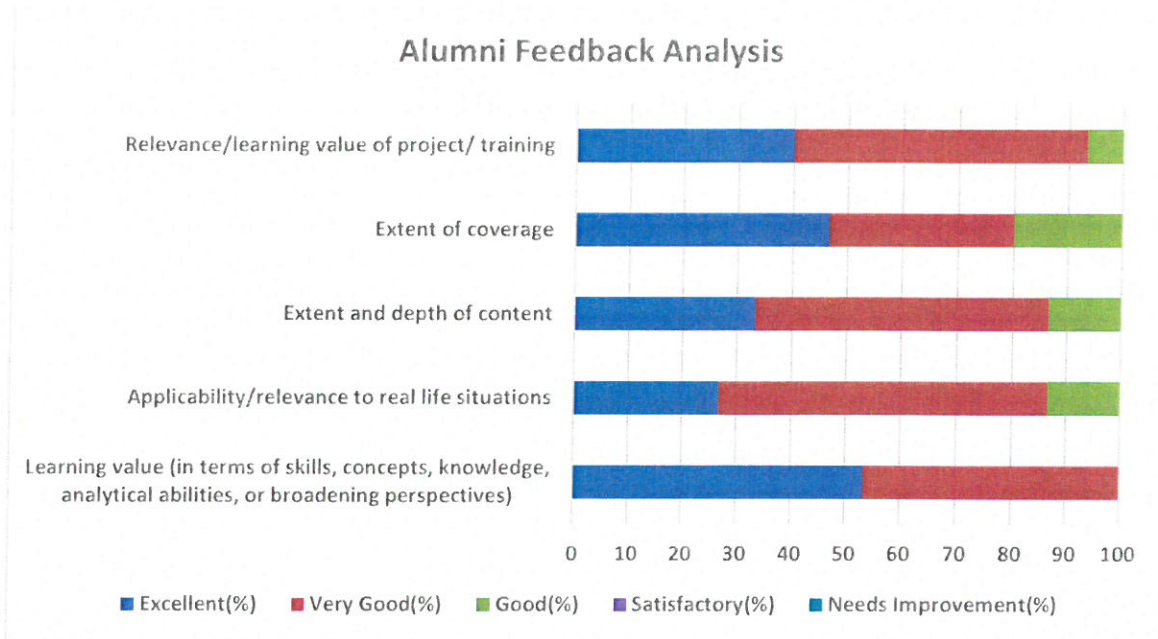

● Analysis of Feedback by Employers

- Team work and team collaboration is somehow needs to be improved.
- English presentation skills still needs to be improved.
- Some student needs to focus and improve technical/coding skill.
- Overall syllabus is satisfactory.

HEAD OF DEPARTMENT
smt. K. D. Patel Dept. of Information Technology
Chandubhai S. Patel Institute of Technology

● **Analysis of Feedback by Alumni**

	Excellent	Very Good	Good	Satisfactory	Needs Improvement
Percentage(%)	40%	49.33%	10.67%	0%	0%

- Keep updating the course and electives as per the current Technology trends and needs.
- Course priority/sequence should be changed, Some courses should be offered in early semester.
- Include more concepts of AI/Cloud /Security/NodeJS etc.
- More practical approach.
- Advance courses from coursera or any other platform should be compulsory.
- More focus on Software Group Projects.
- Credit transfer for cretification courses.

HEAD OF DEPARTMENT
smt. K. D. Patel Dept. of Information Technology
Chandubhai S. Patel Institute of Technology
At. & Po. Changa, Ta. Petlad,
Dist. Anand, Gujarat-388421.

● **Analysis of Feedback by Academic Peers/Teacher**

	Excellent	Very Good	Good	Satisfactory	Needs Improvement
Percentage(%)	58.56%	32.91%	06.31%	1.48%	0.74%

- Overall curriculum content is good.
- ADBMS should be offered.
- Syllabus content is well defined and as per the industry standard.
- Students should be encouraged to learn from textbook.
- Windows function, stored procedures are required in DBMS.
- Students have done good projects with various technologies.

Summary and Action Taken Report of Feedback on Curriculum
AY: 2023-24

Category	Comments	Action Taken
Alumni	Suggestion on updating the course and electives as per the current Technology trends and needs	French, Research Writing and Ethics , Mastering Competitive Programming and microservice programming courses are being introduced as electives in the upcoming year (2024-25) to meet technology demands.[Annexure-I]
	Course priority/sequence should be changed, Some courses should be offered in early semester	We have incorporated suggesions in the upcoming year.The courses like Software Engineering, Language Processors, and Cloud Computing will be offered earlier in the upcoming semester.[Annexure-I]
	Suggestion on more focus on SGP.	Department will orient the students regarding importance of project competition with excellence by organizing Solution challengege competition. Department will plan to orient students with different project categories with potential trust ares.[Annexure-II]
	Credit transfer for cretification courses.	The university has decided to offer SWAYAM NPTEL courses as elective , and their credits will be fully or partialy transfer in university result. .[Annexure-I]
Employer	Team work and team collaboration is somehow needs to be improved.	The department will motivate students to take part in project compitions ,Tech fest ,Hackathon to promote team building.In

HEAD OF DEPARTMENT
smt. K. D. Patel Dept. of Information Technology
Chandubhai S. Patel Institute of Technology
At. & Po. Changa, Ta. Petlad,
Dist. Anand, Gujarat-388421.

		software group project course, department will allow students to build the project in a team of 2-3 students.
	English presentation skills still needs to be improved.	Department has start taking Seminar presentation in each course during lab hours.[Annexure-III]
	Some student needs to focus and improve technical/coding skill.	The programming courses will include problems from online coding plateforms such as Hackerank, Code chef, Coding Ninja ,Leetcode etc to improve the coding skill of the students.The department has planned to offer competitive programming course in upcoming year.
Student	Labs of SNT course should be required.	The department has incorporated laboratory sessions for the SNT course.[Annexure-IV]
	7th sem subjects should be transferred to early semester	The Language Processor,Internet of Things, Software Engineering and Cloud Computing courses will be offerd in 3 rd year of B.Tech IT.[Annexure- I]
	Include SE course in 6th sem	
	let students have more flexibility over the choices of elective course	The Department will offer more elective courses in upcoming year with the discussion with BOS members.[Annexure-I]
	More Practical/lab sessions should be required than theory session.	The Prctical credits/hours will increased for course with more practical components. [Annexure-V]
Teacher	ADBMS should be offered	Fcaulty board had advised to offer advanced courses in Master level.
	Windows function, stored procedures are required in DBMS.	The course coordinator of DBMS has incorporated the sugession in DBMS practical component. [Annexure-VI]

Dear Students,

We are excited to inform you about the upcoming Hackathon cum SGP Internal Review, which promises to be an exciting and enriching experience for all of us.

Below, you will find detailed instructions and the schedule for the event:

Date: 29/09/2023 & 30/09/2023

Venue: will be shared by evening.

Schedule:

9:00 AM - 11:00 AM: Interaction with External Jury Member and Necessary Suggestions

11:00 AM - 12:00 PM: Evaluation Round-1

12:00 PM - 1:00 PM: Break Time

1:00 PM - 2:00 PM: Mentoring and Observation from Jury Members

2:00 PM - 3:00 PM: Evaluation Round-2

Evaluation Criteria:

1. Innovation/Startup Potentials

**STATISTICAL AND NUMERICAL TECHNIQUES
(MA262)-PRACTICAL LIST**

K.D Patel Department of Information Technology

Semester: IV

Sr. No	Practical
1	1. Sampling Distributions and Test of Hypothesis 1.1 Demonstrate the random number generation application in OTP generation and analyse the distribution. 1.2 Apply the concepts such as point estimation and interval estimation in data analysis. 1.3 Create a framework for hypothesis testing that will evaluate on how well operating system scheduling algorithms work for better resource management and system performance and generate visualizations such as box plots or histograms.
2	2. Simulation 2.1 Perform network traffic analysis using poisson distribution. 2.2 Understand the concept of binomial or normal distribution in game development. 2.3 Estimate the stock price using Monte Carlo simulations.
3	3. Case study on regression and correlation analysis
4	4. Interpolation and curve fitting 4.1. Error Analysis 4.2. Lagrange's Interpolation 4.3. Newton's Interpolation 4.4. Least Squares Curve Fitting (Linear) 4.5. Least Squares Curve Fitting (Quadratic)
5	5. Numerical Integration and numerical solution of different types of equations. 5.1. Design and implement a Python program that demonstrates the numerical integration methods: Rectangle Rule, Trapezoidal Rule, and Simpson's Rule. 5.2. Design and implement a Python program that demonstrates three different numerical methods for finding roots of equations: Bisection Method, False Position Method (Regula-Falsi), and Newton-Raphson Method

Annexure – VI
Information Technology

Practical-10

**Aim: To create a PL/SQL procedure that performs the multiplication of two numbers.
The procedure will take two input parameters and return the product.**

Constraints

1. **Input Parameters:** The procedure will accept two input parameters of type NUMBER.
2. **Output Parameter:** The procedure will have an output parameter to return the result of the multiplication.
3. **Error Handling:** The procedure will handle potential errors such as invalid input types.

Test Cases -
